Work Experience

Project Manager

May 2023 - Nov 2023

Behavioral Capabilities

- Freelance
- Worked closely with stakeholders to ensure alignment between user research findings and project goals, fostering a user-centric design approach.
- Developed a user-friendly and intuitive interface with a clean layout and easy to navigate menu structures.
- Collaborated with clients targeted user groups to translate user insights into actionable design recommendations for improved user engagement.

UI Designer

Dec 2021 - Mar 2023

USAA

- Remote, Contractor
- My year of experience as a UX Designer Mid. within the banking sector further enriches my skill set. I successfully streamlined our design processes, optimizing efficiency and resource allocation to meet tight project deadlines from discovery to implementation through the development of research deliverables, design artifacts, and prototypes.
- One of my standout achievements was spearheading the design for an internal Data Literacy learning website, which resulted in a 65% increase in employee engagement within three months of launch. This success was attributed to a deep understanding of user behaviors, rigorous usability testing, and a data-driven approach to design decision-making.
- Advocate for research through interviews to external customers

Aviation Records clerk

Nov 2018 - Sep 2019

P.A.E | San Diego

- Utilized lean & agile methodologies for improving trends and operations
- Compiled a growing inventory and analyzed quantitative data and reports for company production review
- Processed a plan for implementation guidelines and award-winning file management

Administrationman

Mar 2013 - Feb 2018

Pacific Ocean | Yokosuka

- Administered/Managed NALCOMIS data records system
- Compiled a growing inventory and analyzed quantitative data and reports for company production review
- Processed a plan for implementation guidelines and Naval Fleet award-winning file management
